

Akash Vanshraj Singh Chauhan

+91-9113212122 | Akashchauhanv09@gmail.com |

Business Analyst with 3+ years of experience delivering scalable solutions, improving workflows, and supporting end-to-end product development. Skilled in converting complex business needs into clear user stories, acceptance criteria, process flows, and UAT scenarios. Strong in Agile delivery, stakeholder communication, requirement clarity, problem-solving, and coordinating with Product, Engineering, and QA teams. Adaptable, domain-flexible BA capable of contributing to any technology, finance, or enterprise product team

PROFESSIONAL EXPERIENCE

Deloitte Consulting India Pvt. Ltd.

Associate Analyst → Analyst

Oct 2022 – Present | Worked across four major client projects performing Business Analyst and Proxy Product Owner responsibilities.

Engagement 4 – Product Owner / Business Analyst

Oct 2025 – Present

- Lead end-to-end requirements lifecycle for multiple client engagements: elicitation, documentation, validation, and delivery
- Translate ambiguous business problems into structured user stories, process flows, and acceptance criteria; reduce refinement cycle time by 30%
- Own product backlog prioritization and sprint planning; coordinate with Engineering, QA, and business stakeholders across 4 concurrent workstreams
- Analyzed business requirements and supported documentation of user stories, workflows, and acceptance criteria
- Assisted in backlog refinement, UAT execution, and stakeholder discussions

Engagement 3 - Business Analyst

Oct 2024 – Oct 2025

- Gathered and analyzed requirements for trade capture, order routing, settlements, and reconciliation systems (
- Authored comprehensive BRDs, FRDs, and tech specifications; ensured traceability from business need to tech implementation
- Mapped current-state vs. future-state processes; identified gaps and recommended solutions improving operational efficiency
- Facilitated sprint plan and backlog grooming sessions; improved team velocity by 20% through clearer requirement definition
- Collaborated with cross-functional teams (Engineering, QA, Operations) to resolve dependencies and ensure on-time delivery

Engagement 2 - Business Analyst

Oct 2023 – Oct 2024

- Gathered and documented business requirements for order management and transaction processing systems, translating complex workflows into clear user stories and acceptance criteria
- Authored comprehensive BRDs, FRDs, and process flow diagrams; ensured end-to-end traceability from business need to technical implementation
- Led UAT planning and execution: designed test scenarios, coordinated QA and business users, triaged defects, and secured sign-off for 3 major releases

Engagement 1 – Associate Business Analyst

Oct 2022 – Oct 2023

- Analyzed business requirements and supported documentation of user stories & workflows.
- Assisted in backlog refinement, acceptance criteria definition, and stakeholder discussions.
- Supported UAT execution, defect management, and requirement traceability.
